## PRODUCT INTROS

>**Foscarini's Tobia Floor Lamp** by architect and designer Ferruccio Laviani is now available at the MOMA Design Store. With its compact footprint, slender body,

and no-shade design, the Tobia Floor Lamp can make a statement in small spaces. It exemplifies "how simplicity can have character: slender, compact, and easy to move." The design's body emits light from the top that reflects

HAT Collective Healthcare: Tango Cart

from the ceiling to create a warm atmosphere. A stylish flourish is created by a loop in the center of the lamp's slim body. [Read More](#)

>**HAT Collective Healthcare introduced the Tango Cart, designed "like the perfect dance partner" to optimize the point-of-care experience.** Tango is available in three configurations to support a healthcare provider's preferred technology use. Two configurations come non-powered: The Tango Cart with Keyboard Tray and the Tango Cart Laptop. The third configuration – the Tango Cart with Keyboard Tray and Monitor Mount – comes powered and features a robust 450 watts of power and a lithium iron phosphate battery. The power system has a battery run time of up to 13 hours to easily meet most caregiver work shifts. With a small profile and easy-grip handles perfectly positioned for optimal access, Tango can be easily moved in and out of position as needed. Mobility is further achieved through 4-inch double caster wheels, two of which can be locked. The simple, pneumatic gas spring lift-assist offers effortless adjustment for sitting or standing. Tango's generous worksurface area of

20" w x 12" d can be easily cleaned between shifts. Accessory add-on options include baskets, bins, a universal CPU holder and a track for integrated cable management. [Read More](#)

>**Knoll launched Newson Task™ - the first foray into workplace design by renowned industrial designer Marc Newson.** It expands upon the ideas of Marc Newson's first collaboration with Knoll, the Newson Aluminum Side Chair (2018), to create a family of seating. Newson Task is an ergonomic task chair whose silhouette creates one continuous line. The cantilevered shape is made possible by a brand-new tilt innovation—one that flips the mechanism vertically, so it's concealed cleverly beneath the seat, which appears to float—a completely new look for a work chair. The back is soft and rounded, with its pattern designed to evoke a sense of depth and movement on a plane that would typically be viewed as flat. The honeycomb back, which features integral lumbar support, pairs a flexible nylon frame with a rubberized, thermoplastic elastomeric skin, an innovative combination that supports all levels of move-
